

**Welcome to all new homeowners in the neighborhood!**

We strive to have a quarterly newsletter and to regularly update our blog and send timely announcements via email to keep you up to date on neighborhood events and news. Please visit our blog:

and/or email us to be added to our announcements list.

**WE HAVE NEW TRASH CANS!**

I'm sure you have all noticed our lovely new trash cans at the main playground and Christopher Drive playground. The trash cans are sturdy, and should hold up and continue to look nice for many years to come. We can't do it without your help though, so please take care of these cans, treat them kindly, and remind your children not to climb on them or play with them.

**2010 CENSUS**

We have had many questions about the 2010 Census, especially about census takers going door to door in the neighborhood requesting information.

Here is some information from the Census website:

*A census taker is a person from your community who is hired by the Census Bureau to make sure that your neighborhood gets represented as accurately as possible.*

*The census taker's primary responsibility is to collect census information from residences that have not sent back their 2010 Census form.*

- \* The Census Bureau provides the census taker with a binder containing all of the addresses that didn't send back a filled out census form*
- \* The census taker then visits all of those addresses and records the answers to the questions on the form*
- \* If no one answers at a particular residence, a census taker will visit that home up to three times, each time leaving a door hanger featuring a phone number; residents can call the number on the hanger to schedule the visit*

*The census taker will ONLY ask the questions that appear on the census form.*

For more information on the 2010 Census, you can visit their website: <http://2010.census.gov>
